Dear 6th Grade Students and Parents,

Welcome to your first year at Northwestern Middle School! There are wonderful opportunities available at NMS, one of which is to become involved in the Northwestern Music Department. Any student who would like to play a band or orchestra instrument or sing in chorus may still sign up. There is NO experience required to sign up for a music class, and we will teach students everything they need to know to be successful in their chosen area. It won't be long before students are sharing their musical skills with the school community!

Band, Orchestra and Chorus classes are the first of potentially seven years' worth of music education, and a lifetime of enjoyment. Participation in the music department is a yearlong commitment during school, with only three evening performances outside of the school day. Music students in band or orchestra may be asked to supply their own instruments as well as other instrument related supplies and method books, but we also have school-owned instruments available for those with need. Some larger instruments (cello/bass/tuba/etc.) will be available for use during the school day to resolve transportation issues. More information about specific supplies, where to rent or purchase instruments, and uniforms will be distributed at the start of the respective classes. Below are brief descriptions of each area in the music department.

The *beginning* of the sixth grade is the only time students can begin instrumental instruction. Music classes, PE/health, and connections classes are taught 5 days a week during 7th and 8th periods. The music class chosen fills one of these periods on your schedule for the year. The other class will rotate each 9 weeks, through the other classes. If students choose two music classes, this will fill their 7th and 8th periods for the year, and students will not have PE or connections. Please see a director for more information if you wish to double in music.

The **Band** includes the woodwind, brass, and percussion families of instruments. Examples of woodwinds are the bassoon, clarinet, flute, oboe, and saxophone. Students interested in brass instruments might select the baritone, French horn, trumpet, trombone or tuba. Percussion instruments include melodic pitched instruments (e.g. bells and marimba) in addition to the snare and bass drums, or drum set. Mrs. Naughton and Mr. Rushing, the band directors, will help you identify your best choice of instrument.

The **Chorus** gives students a chance to develop their voice in a group setting while building musical skills. There are also many opportunities for solos and other activities such as all-state chorus and honor choruses. Choral students perform a variety of musical styles including traditional choral, jazz, classical, musical theatre and pop. Ms. Grant, the choral director, will welcome you into the program no matter your level of experience.

The **Orchestra** is comprised of the stringed family of instruments. These include the violin - the smallest and highest pitched instrument in the string family; the viola - a mellow midrange instrument slightly larger than the violin; the cello - a rich sounding lower register instrument; and the string bass - the largest and deepest in the string family. Mrs. Champion, the orchestra director, will introduce all four instruments to students and assist them in choosing one. All stringed instruments come in multiple sizes to fit any sized student.
