REGISTER TO VOLUNTEER

After you enter your name, birthdate, and answer the first three questions, you will begin a very short mandated reporter training with a few slides and three more questions at the end.

As a volunteer that will interact with children, you are a legally mandated reporter, and any incident observed or reported must be reported to DFCS within 24 hours.

When you finish the last three questions, you will need to fill in your information and submit it. This goes into a database that is monitored by Fulton County Schools. I can check the approved volunteers list through the front office. If you are not on the approved volunteer list, you won't be allowed to come to my classroom, as you won't be able to check in at the front office. You also would not be allowed to go on a field trip with the orchestra. Please complete this as soon as possible and I will double to check to make sure you're on the approved list before you arrive. It takes at least 24 hours for the county to process volunteers.

Thank you for being a volunteer!
